

Data Revenue GmbH - KI Entwicklung

Data Revenue ist ein Team von internationalen KI Software Entwicklern. Viele Unternehmen verschwenden Zeit und Geld in dem Versuch mehr aus ihren Daten zu machen. Wir helfen Unternehmen ihre Daten effizient einzusetzen, mit individuell entwickelten KI Lösungen. Unter anderem sind wir das KI Team für RTL, ImmobilienScout24 und Mercedes.

Student Researcher

Interviews leaders in AI in Europe and uncover hidden knowledge about what people want.

City: Berlin; Starting Date: At the earliest possible; Duration: 3-24 months; Renumeration: 450€

Task

Research, Interviewing, Marketing Strategy

- Interview people in many fields (from Researchers to CEOs, from Pharma to Automotive).
- Read between the lines, see patterns and summarize your findings.
- Turn your research into new AI products, services or content with our marketing team.

Qualifications

- You love talking to people, and learning about their point of view.
- You have a 6th sense for what people really mean, feel and want.
- You're independent and a strong learner, if you don't know much about a topic, you research it until you do.
- You care deeply about making things that are actually helpful to people.
- (Bonus) You speak German and are based in Berlin

What We Offer

- 450€ / month. ~12 hours work per week.
- Flexible & remote working – work on your own schedule and wherever you want.
- Learn research & marketing skills for starting your own business.
- Learn about the AI market and meet many different people.
